Goodbye and thank you!

After over 15 years of operation, the time has come to shut down PetitionOnline. Started in 1999 by a single man, PetitionOnline has served the world as a platform for free speech and encouraged countless participants to make themselves heard.

Sadly, the costs of hosting and developing this platform are no longer reasonable. Accordingly, we will be shutting the site down on September 30, 2014.

We thank you, the users, for making this platform what it is. And we invite you to use the tools on our partner site, [Change.org](#), to continue creating the change you want to see in the world.

[PetitionOnline.com](#) provides free hosting of public petitions for responsible public advocacy.

This public forum is privately sponsored and we reserve the right to refuse submissions.

Petitions do not necessarily reflect the views and opinions of PetitionOnline.com or our sponsors. Please send us your questions, comments, and suggestions!
